**FROM THE NEWSWIRE**

**MONTREAL:** Bruno Giros, PhD, a researcher at the Douglas Mental Health University Institute and a professor in the Department of Psychiatry at McGill University, has demonstrated, for the first time, the role that dopamine plays in a region of the brain called the hippocampus. Published in *Biological Psychiatry*, this discovery opens the door to a better understanding of psychiatric diseases, such as schizophrenia.

**OTTAWA:** The Canadian Alliance on Mental Illness and Mental Health (CAMIMH) officially announced the winners of the Champions of Mental Health Awards for 2014. The annual Champions Awards celebrate individuals and organizations whose outstanding contributions have advanced the mental health agenda in Canada in the past year. This year, new categories were introduced to recognize youth and workplace mental health initiatives to offer a broader range of opportunities for recognition.

**MONTREAL:** At the 6th Annual National Conference to Defeat Cancer, organized by Coalition Priorité Cancer, Merck Canada reinforced the company's continued commitment to the Quebec life sciences research innovation sector by announcing a \$2-million grant to the Quebec - Consortium de recherche en oncologie clinique (Q-CROC).
