

Pharmacy BULLETIN BOARD

Retail Issue ■ Monday January 12, 2015

When a doctor prescribes a colonoscopy, endoscopy or surgical procedure, patients need to prepare and clean their bowel with:

PURG-ODAN®

A Smart Way to Purge Away

Sodium Picosulfate / Magnesium Oxide / Citric Acid

Used in hospitals and clinics across Canada, this great orange-tasting oral purgative is easy to prepare and minimizes the amount of medication to drink. Purg-Odan® can be taken with a choice of clear fluids such as sports drinks, chicken/beef broth, white sodas, popsicles, pulp-free juices, etc.

Lower price than Pico-Salax[†]!

Product	Format	Wholesaler cost	DIN	K & F	McKesson	McMahon

■ FROM THE NEWSWIRE ■

VANCOUVER: 2015 is starting with good news and hope for melanoma patients thanks to two major milestones for ground-breaking melanoma immunotherapies. The Save Your Skin Foundation (SYSF) is very pleased to learn that a new treatment, Opdivo (nivolumab), has been given its first approval in the United States to treat advanced melanoma in patients who have not responded to other treatments. At the same time, the original melanoma immunotherapy, Yervoy (ipilimumab), has moved along another step in the process of becoming available as a first treatment for newly diagnosed Canadian patients.

DORVAL, QC: Novartis announced that Health Canada has approved Flud Pediatric™ (MF59[®]) adjuvanted seasonal trivalent influenza vaccine for use in children 6 months to less than 2 years of age. Flud Pediatric™ is the first vaccine developed specifically for infants to help elicit a robust immune response against seasonal influenza (also commonly known as flu).

MISSISSAUGA, ON: Roche Canada announced that it has received Health Canada approval for ACTEMRA[®] (tocilizumab) intravenous and subcutaneous formulations for use to reduce signs and symptoms in adult patients with moderate to severe rheumatoid arthritis (RA). ACTEMRA[®] is the first and only interleukin-6 (IL-6) receptor antagonist to be approved for use in Canada in patients with RA who have not been previously treated with methotrexate (MTX) for their disease (early RA).

Taro-Warfarin

Reliable Product Supply

Some warfarin marketed products have been experiencing supply issues.

Switch to Taro-Warfarin for a reliable supply.

Taro-Warfarin is produced to the highest quality standards.

- Taro is the market leader with 75% market share nationally (IMS Ext Units, MAT Sep 2014)
- Taro has been manufacturing Taro-Warfarin for over 50 years
- Taro Pharmaceuticals' state-of-the-art, vertically integrated manufacturing systems ensures a consistent, high quality product supply
- Taro-Warfarin is available in all the product strengths (1mg, 2mg, 2.5mg, 3mg, 4mg, 5mg, 6mg, 7.5mg and 10mg) and in 3 different sizes (100s, 250s & 1000s)
- Taro-Warfarin patient education materials are also available for your patients at no charge

For further information or to place an order for Taro-Warfarin, please contact your Taro Representative, your wholesaler, or Customer Service at **1-800-268-1975** or visit www.taro.ca

Taro-Docusate

Docusate Sodium Capsules 100mg

Now with "T" imprint on the capsules

Taro-Docusate capsules now have a "T" imprint to distinguish the product from other marketed Docusate products. The Taro-Docusate capsule size, shape and colour remain the same. There is no change to Taro-Docusate formulation, efficacy or quality. Taro-Docusate capsules with the new imprint will be phased in starting in January 2015.

- Now with "T" imprinted on the capsules
- Listed on most Provincial Formularies
- Same Size, shape and colour as Soflax^{®1}
