■ FROM THE NEWSWIRE ■

MISSISSAUGA, ON: LabStyle Innovations and Auto Control Medical have announced the Canadian launch of the Dario Diabetes Management Solution, a compact all-in-one system that helps people with diabetes monitor blood sugar levels and proactively manage their disease using their smartphone or tablet.

MISSISSAUGA, ON: People in Manitoba and Saskatchewan living with Chronic Lymphocytic Leukemia (CLL) will now be able to access a new treatment option through the prescription drug insurance plans in both provinces. Earlier this week, **GAZYVA[®]** (obinutuzumab) in combination with chlorambucil chemotherapy was added to benefits formularies of the Provincial Oncology Drug Programs at CancerCare Manitoba and the Saskatchewan Cancer Agency. These decisions follow the announcement on June 2, 2015 that the treatment would be funded in Quebec.

MONTREAL: Telesta Therapeutics Inc. has announced that it has submitted electronically, through its U.S. agent, a Biologics License Application (BLA) to the United States Food and Drug Administration (FDA) for MCNA1. MCNA is Telesta's novel biologic immunotherapeutic for the treatment of high-risk non-muscle invasive bladder cancer patients who have failed first-line BCG therapy.
