**TORONTO:** Sanofi Pasteur, the vaccines division of Sanofi, is pleased to announce the launch of its 4-strain influenza vaccine (Fluzone<sup>®</sup> Quadrivalent) in Canada. This new vaccine was introduced in the United States in 2013 and is quickly becoming the new standard of care for the prevention of influenza. Licensed for use in individuals six months of age and older, Fluzone<sup>®</sup> Quadrivalent vaccine provides improved protection against influenza, and will be available in Canada starting this flu season.

**OTTAWA:** Health Canada took action to stop the import of health products from the following sites in India:

- Apotex Pharmachem India Pvt Ltd (APIPL)
- Apotex Research Private Limited (ARPL)
- IPCA Laboratories

**TORONTO:** Apotex Inc. has learned of Health Canada's action to temporarily suspend, as a precautionary measure, the importation of drug products from certain plants in India including two Apotex affiliates, Apotex Pharmachem India Pvt Ltd (APIPL) and Apotex Research Private Ltd (ARPL). Apotex believes that Health Canada's intentions in this regard are unwarranted and that, upon careful review of all of the facts, Health Canada will be fully satisfied as to the integrity and quality of all Apotex products imported from the Indian facilities.
