FROM THE NEWSWIRE

MONTRÉAL: A study just published in the prestigious Nature Neuroscience journal by Sylvain Williams, PhD, and his team, of the Research Centre of the Douglas Mental Health University Institute and McGill University, opens the door towards better understanding of the neural circuitry and dynamic mechanisms controlling memory as well of the role of an essential element of the hippocampus – a sub-region named the subiculum.

BURLINGTON, ON: Boehringer Ingelheim (Canada) Ltd. Announced hat on June 26, Health Canada approved Pradaxa® (dabigatran etexilate) for the treatment of venous thromboembolism events (deep vein thrombosis [DVT] and pulmonary embolism [PE]), and for the prevention of recurrent DVT and PE.
